GRANITI VICENTIA
GROUP

GRANITI VICENTIA BRINGS VALUE TO OUR CUSTOMERS

Graniti Vicentia provides **solutions to create spaces** that support and reflect the individuality, image and brand statement of our customers. We offer a menu of products, services and support to develop your project from the conception to completion.

Our approach is based on a collaborative team of professionals who share their knowledge to work on the project, from concept design, to the technical development of product solutions, through installation.

OUR GOAL IS ALWAYS TO EXCEED THE OWNER'S EXPECTATIONS.

SURFACE SOLUTIONS FOR EVERY NEED

GV Surfaces is the division within Graniti Vicentia Group that focuses on surface solutions solutions. We provide innovative solutions that respond to the interior and exterior needs of each of our customers. The flexibility of ceramics allows for each surface to be defined and chosen to create a space with design intent. The portfolio of products offered is the continued effort of GV Surfaces

to keep current. We take great care to select products displaying the **latest trends** in design combined with the **extraordinary quality** and cutting-edge technology of the constant and never-ending research of our vendors. This, along with GV Group's offer of value added fabrication services, provides our customers with **value design**, quality and the performance of surface materials.

QUALITY PRODUCTS FOR UNIQUE PROJECTS.

I campioni fotografati servono a dare un'idea indicativa del prodotto, colori e strutture non hanno nessun valore impegnativo. _ The samples photographed are intended to give an approximate idea of the product; the colours and textures shown are not binding. _ Die abgebildeten Muster sollen eine Vorstellung von dem Produkt vermitteln, Farben und Formen sind nicht verbindlich. _ Les échantillons sur photos servent à transmettre une idée du produit, des couleurs et des structures. Ils ne sont donnés qu'à titre indicatif et n'engagent pas le producteur. _ Las muestras fotografiadas sirven para dar una idea indicativa del producto, por lo que ni los colores ni las estructuras son vinculantes.

In the logic of the environment, waste is a **Re**Source

Inspiring Better Living

Fin dai nostri esordi, ci siamo immersi con dedizione nell'esplorazione e valorizzazione del gres porcellanato, un materiale che unisce la bellezza estetica alla versatilità. Profondamente legati alla tradizione ceramica Made in Italy, è con orgoglio e passione che abbiamo portato avanti quest'eredità in oltre 150 Paesi nel Mondo. Come ambasciatori del Made in Italy, il nostro impegno nella realizzazione di soluzioni sostenibili per il benessere della comunità e dell'ambiente rappresenta un paradigma di eccellenza.

EN Right from the beginning, we've devoted our efforts to exploring and promoting porcelain stoneware, a material that teams beauty with versatility. We are deeply bound to the Italian ceramic tradition, and have invested pride and passion in carrying forward this heritage in over 150 countries worldwide. As ambassadors of Italian craftsmanship, our commitment to providing sustainable solutions for the well-being of the community and the environment is a model of excellence.

ReSource

Turning waste into Value

Nella logica
dell'ambiente
lo scarto
è una risorsa

Siamo impegnati nel recupero e nella valorizzazione di ciò che prima era considerato scarto, trasformandolo in risorse vitali per un modello di produzione ispirato all'equilibrio della natura, dove nulla viene sprecato.

EN We are dedicated to recovering and enhancing what was once considered waste, transforming it into vital resources for a production model inspired by nature's balance, where nothing is wasted.

FR Nous nous sommes engagés à récupérer et à valoriser ce qui était auparavant considéré comme des déchets, en les transformant en ressources vitales pour un modèle de production qui s'inspire de l'équilibre de la nature, là où rien n'est gaspillé.

ES Nos esforzamos en recuperar y valorizar lo que antes se consideraba residuo, transformándolo en recursos vitales para un modelo de producción inspirado en el equilibrio de la naturaleza, en el que no se desperdicia nada.

DE Wir setzen uns für die Rückgewinnung und Aufwertung aller Materialien ein, die bisher als Abfall galten, und verwandeln sie in lebenswichtige Ressourcen. So entsteht ein verschwendungsfreies Produktionsmodell, dass sich am Gleichgewicht der Natur orientiert ist.

自公 最大限度地减少消耗。对以前被认为是浪费的东西，我们致力于将其回收和给以增值，成为转化为受自然平衡启发的生产模式的重要资源，在这种模式下，不会浪费任何东西。

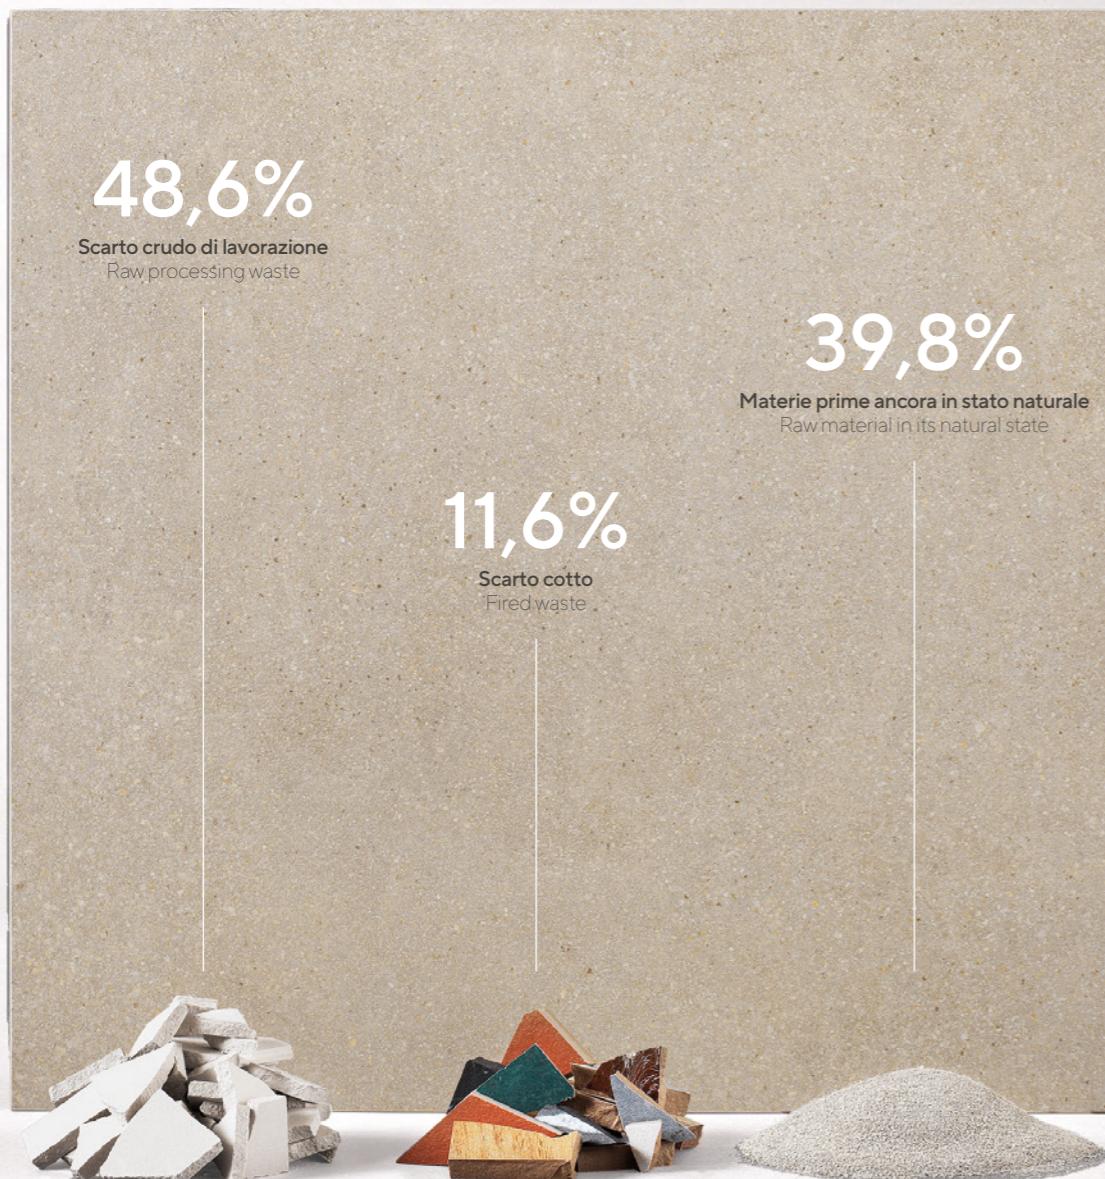

ReUse ReDuce ReSpect

EN ReUse, ReDuce, and ReSpect are the pillars of sustainable production that guide our commitment every day. Choosing a product from the ReSource range is an ethical choice towards waste reduction and more responsible resource use. Each ReSource collection contributes to a virtuous system that values material reuse, reduces consumption, and demonstrates respect for the environment, embodying our commitment to a future where sustainability becomes a primary objective.

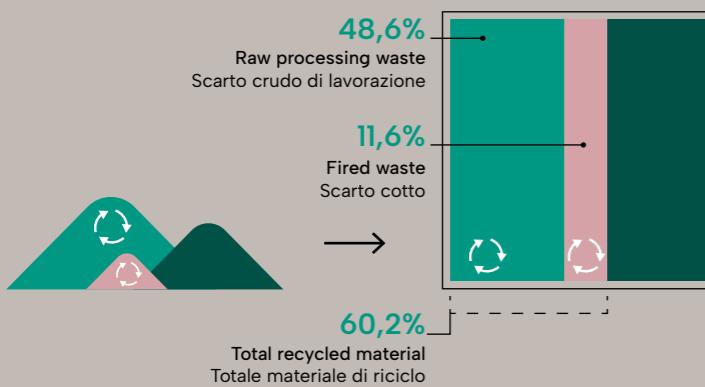

60,2%

Pre Consumer
Recycled Content

EN We have exceeded the 60% threshold in recovering production waste, reintegrating them back into the production cycle in this specific range of products. This practice enables to create porcelain stoneware surfaces that, while reducing environmental impact, do not compromise on the high standards of quality and functionality that have always distinguished our brand. Our regeneration process combines 39.8% of raw materials still in their natural state with 48.6% of processing waste and 11.6% of materials that have completed the firing cycle, resulting in an overall 60.2 % pre-consumer recycled content.

①

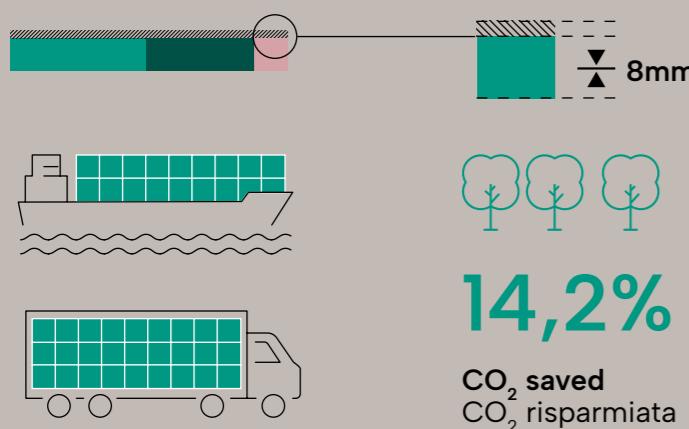

**Riusiamo per Rinnovare**

Trasforma materiali di scarto in nuove piastrelle, dimostrando che il valore può essere riscoperto e riusato, riducendo l'impatto ambientale e promuovendo una cultura del riuso.

We Reuse to Renew

Transforming waste materials into new tiles, demonstrating that value can be rediscovered and reused, reducing environmental impact and promoting a culture of reuse.

②

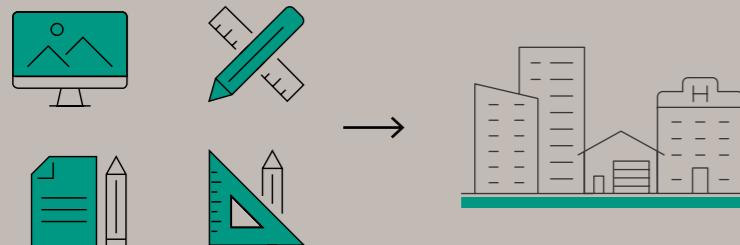

**Riduciamo per Reinventare**

% di CO₂ risparmiata con il nuovo spessore 8mm rispetto a un prodotto di spessore 9 mm.
Ogni container ottimizzato riduce l'impatto ambientale del trasporto marittimo, uno dei maggiori contributori alle emissioni globali di CO₂.

We Reduce to Reinvent

% of CO₂ saved with the new thickness of 8mm compared to a product with a thickness of 9mm.
Each optimized container reduces the environmental impact of maritime transport, one of the major contributors to global CO₂ emissions.

③

**Rispettiamo per Eco-progettare**

Stimoliamo processi di eco-progettazione ripensando processi che garantiscono non solo bellezza, ma anche rispetto per l'ambiente.

We Respect to Eco-design

We stimulate eco-design processes by rethinking processes that ensure not only beauty but also respect for the environment.

Turning waste into Value

L'intero ciclo di vita ingegnerizzato per ridurre l'impronta di carbonio dei nostri prodotti.

EN The entire life cycle is engineered to reduce the carbon footprint of our products.

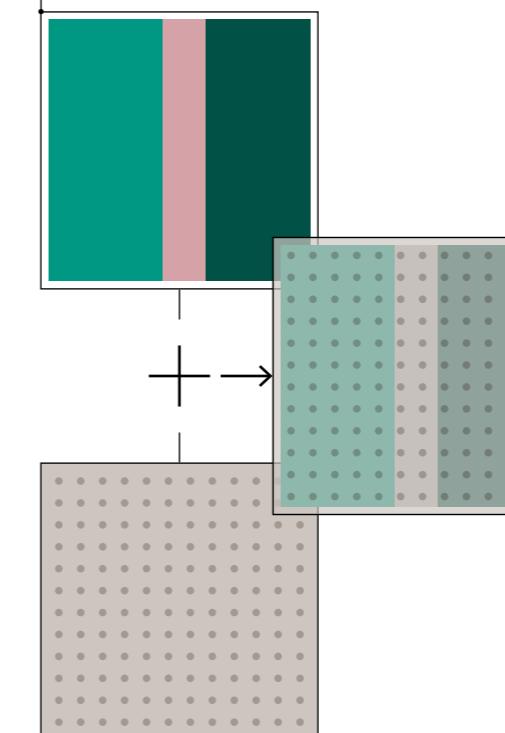

DE Engineering des gesamten Lebenszyklus zur Reduzierung des CO₂-Fußabdrucks unserer Produkte.

FR Le cycle de vie de nos produits est étudié dans son intégralité pour réduire leur empreinte carbone.

ES Todo el ciclo de vida está pensado para reducir la huella de carbono de nuestros productos.

适合所有颜色和饰面

Per i prodotti ReSource, siamo passati inoltre ad uno spessore di 8 mm, una scelta che testimonia la nostra dedizione ad un'impronta sostenibile, senza trascurare design e destinazioni d'uso. Questo dettaglio tecnico, apparentemente minore, genera un impatto sostanziale e si traduce in minor utilizzo di risorse e una conseguente riduzione del consumo energetico durante il ciclo produttivo. Oltre tutto, nei trasporti, questa scelta permette di caricare più piastrelle per ogni spedizione, ottimizzando lo spazio e incrementando l'efficienza logistica, il che si riflette in una diminuzione delle emissioni di CO₂ per ogni metro quadrato che viaggia verso i nostri clienti. Questo approccio ottimizza i processi produttivi e amplifica la sostenibilità lungo l'intera catena di valore.

EN For ReSource products, we have also transitioned to an 8 mm thickness, a choice that underscores our commitment to a sustainable footprint without overlooking design and intended uses. This seemingly minor technical detail generates a substantial impact, translating into reduced resource usage and consequent energy consumption during the production cycle. Moreover, in transportation, this choice allows for more tiles to be loaded per shipment, optimizing space and increasing logistical efficiency, resulting in a decrease in CO₂ emissions per square meter traveling to our customers. This approach optimizes production processes and amplifies sustainability along the entire value chain.

FR Pour les produits ReSource, nous sommes également passés à une épaisseur de 8 mm, un choix qui témoigne de notre engagement en faveur d'une empreinte durable, sans pour autant négliger le design et les champs d'utilisation. Ce détail technique, apparemment insignifiant, engendre un impact substantiel et se traduit par une utilisation moindre des ressources et, par conséquent, par une réduction de la consommation d'énergie au cours du cycle de production. En outre, dans les transports, ce choix permet de charger plus de carreaux pour chaque expédition, en optimisant l'espace et en augmentant l'efficacité logistique, ce qui se traduit par une réduction des émissions de CO₂ pour chaque mètre carré transporté vers nos clients. Cette approche optimise les processus de production et amplifie la durabilité tout au long de la chaîne de valeur.

ES Para los productos ReSource, también hemos pasado a un espesor de 8 mm, una elección que manifiesta nuestra vocación hacia una huella sostenible, sin descuidar el diseño y el uso previsto. Este detalle técnico, en apariencia menor, genera un impacto sustancial y se traduce en un menor uso de recursos y la consiguiente reducción del consumo de energía durante el ciclo de producción. Además, en el transporte, esta elección permite cargar más baldosas por envío, optimizando el espacio y aumentando la eficiencia logística, lo que se refleja en menores emisiones de CO₂ por metro cuadrado que viaja hasta nuestros clientes. Un enfoque que mejora los procesos de producción e impulsa la sostenibilidad a lo largo de toda la cadena de valor.

DE Bei den ReSource-Produkten sind wir außerdem auf eine Stärke von 8 mm umgestiegen, ein Zeichen, wie wichtig uns der nachhaltige Fußabdruck ist, ohne dabei das Design und den Einsatzbereich außer Acht zu lassen. Dieses scheinbar unwesentliche Detail hat erhebliche Auswirkungen und führt zu einem geringeren Ressourcenverbrauch und folglich zur Senkung des Energieverbrauchs während des Produktionszyklus. Außerdem ermöglicht diese Entscheidung beim Transport, mehr Fliesen pro Spedition zu laden. Dadurch wird der Platz optimiert und die Effizienz der Logistik gesteigert, was sich in einer Senkung der CO₂-Emissionen pro an unsere Kunden versandtem Quadratmeter widerspiegelt. Durch diesen Ansatz werden die Produktionsprozesse optimiert und die Nachhaltigkeit wird entlang der gesamten Wertschöpfungskette gesteigert.

8mm

自公 对于 ReSource 产品，我们还改用了 8 毫米的厚度，这一选择体现了我们对可持续性 足迹的奉献，同时又不忽视设计和预期用途。这个看似微不足道的技术细节会产生重 大影响，但转化为更少的资源使用，以及随之而来的生产周期中能源消耗的减少。此 外，在运输方面，这种选择使我们能够为每次运输能装载更多的瓷砖，从而优化空间并提高物流效率，这体现在运送到客户的每平方米产品减少了二氧化碳的排放量。这 种方法可以优化生产流程，并增强整个价值链的可持续性。

ReConcrete

ReConcrete rappresenta una rivisitazione contemporanea del cemento rasato, trasposta nel gres porcellanato per esaltarne le qualità estetiche senza compromettere la funzionalità. I piccoli clasti integrati nella superficie aggiungono una dimensione visiva unica, trasformando ogni lastra in una dichiarazione di stile e innovazione.

La collezione esprime la raffinata armonizzazione estetica, dove la robustezza visiva del cemento si fonde con la raffinatezza della pietra, esaltando l'arredamento audace e la tridimensionalità dell'interior design, creando un dialogo visivo dove il contrasto diventa protagonista.

EN ReConcrete a contemporary reinterpretation of smooth concrete, translated into porcelain stoneware to enhance its aesthetic qualities without sacrificing functionality. The small clastic particles embedded in the surface add a unique visual dimension, transforming each slab into a statement of style and innovation. The collection expresses a refined aesthetic harmony, where the visual strength of concrete blends with the elegance of stone, enhancing bold furnishings and the three-dimensionality of interior design, creating a visual dialogue where contrast takes centre stage.

FR ReConcrete est une réinterprétation contemporaine du béton lissé, transposée dans le grès cérame pour en accentuer les qualités esthétiques sans compromettre la fonctionnalité. Les petits fragments intégrés dans la surface apportent une dimension visuelle unique et transforment chaque dalle en une déclaration de style et d'innovation. La collection exprime une harmonisation esthétique raffinée, où la fermeté visuelle du béton s'associe au raffinement de la pierre, mettant en valeur une décoration audacieuse et la tridimensionalité du design d'intérieur afin de créer un dialogue visuel où le contraste devient la clé.

DE ReConcrete transportiert die Optik von geglättetem Beton auf Feinsteinzeug. Die moderne Interpretation betont die visuellen Eigenschaften ohne Kompromisse in puncto Funktionalität. Die kleinen Einschlüsse in der Oberfläche sorgen für ein einzigartiges Erscheinungsbild, das jede Platte in ein Statement für Stil und Innovation verwandelt.

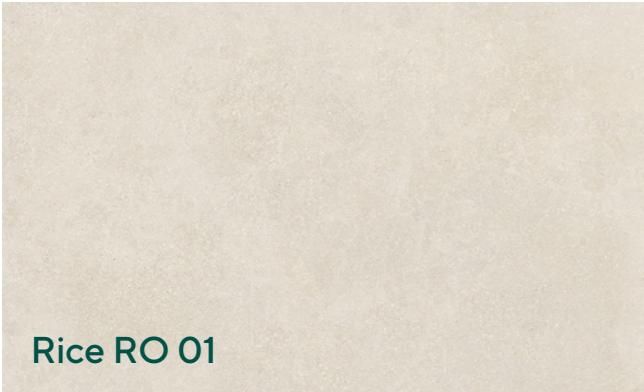

Die fein abgestimmte Kollektion vereint die robuste Optik von Beton mit der erlesenen Ausstrahlung von Stein. Sie betont kühne, großzügige Raumgestaltungen, wo der Kontrast in einem Wechselspiel visueller Verweise tonangebend ist.

ES ReConcrete es una reinterpretación contemporánea del hormigón liso, plasmada en el gres porcelánico para realzar sus cualidades estéticas sin comprometer su funcionalidad. Los pequeños clastos integrados en la superficie añaden una dimensión visual única, transformando cada placa en una declaración de estilo e innovación. La colección expresa la refinada armonización estética, donde la fuerza visual del hormigón se fusiona con el refinamiento de la piedra, realizando el mobiliario más atrevido y la tridimensionalidad del diseño interior para crear un diálogo visual donde el contraste se convierte en protagonista.

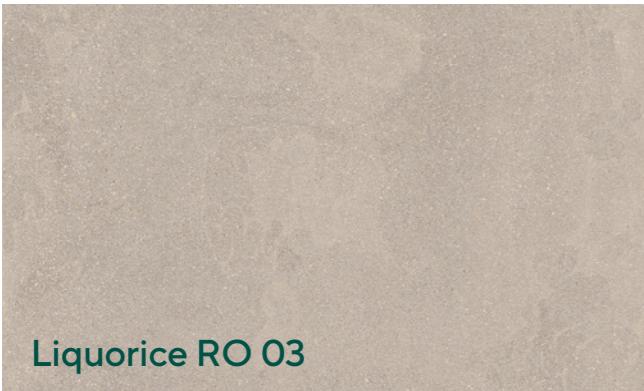

自公 ReConcrete 以瓷质砖的全新方式，展示出更现代的光滑混凝土质感，在提高美学特征的同时不会牺牲产品的功能性。嵌入表面的碎屑微粒使视觉效果更立体，将每块板材都展示出独特的个性创新风格。该系列呈现出精致而和谐的美学语言，将混凝土的视觉力量感与石材的优雅气质融为一体，为家具和空间设计提供更多维度，以材料的对比碰撞为主题，呈现更丰富的视觉效果。

Risparmio di CO₂ per la gamma ReSource

CO₂ savings for the ReSource range

Abbiamo effettuato un confronto tra la nostra EPD da 9 mm e una EPD in fase di per le nostre piastrelle da 8 mm e abbiamo scoperto quanto segue:

We conducted a comparison between our 9 mm EPD and a design-phase EPD for our 8 mm tiles and found out the following:

EPD

Spessore Thickness (mm)	Peso Weight (kg/m ²)	GWP Fossil/m ² (A1-3)
8	18,47	7,07
9	20,78	8,3

Formato Size	m ² of 1 piece	GWP Fossil 9 mm (A1-3)	Differenza Difference
30x60	0,18	1,494	1,2726
60x60	0,36	2,988	2,5452
60x120	0,72	5,976	5,0904

Per questo motivo siamo sicuri di poter affermare che i prodotti ReStone che fanno parte del progetto ReSource del progetto ReSource emettono il 14,82% in meno rispetto ai nostri prodotti con spessore di 9 mm.

That's why we are confident in saying that ReStone products that are part of the ReSource project emit 14,82% less than our 9 mm thickness products.
