ATELIER

Atelier Mirage serves as the hub of our collaborations with internationally renowned architects and interior designers, representing not just an extension of our catalog, but a true catalyst for innovation in Mirage's commitment to ceramic innovation and stylistic research. Through this project, we highlight our ongoing dedication to innovating and redefining ceramic surfaces within contemporary architecture, showcasing the potential of new forms and functions that Italian ceramics can offer to enrich modern architectural spaces.

Atelier Mirage si configura come il fulcro delle nostre collaborazioni con architetti e designer d'interni di fama internazionale, rappresentando non meramente una estensione del nostro catalogo, ma un vero e proprio catalizzatore di rinnovamento per l'impegno di Mirage nell'innovazione e nella ricerca stilistica della ceramica.

Con questo progetto, mettiamo in evidenza il nostro impegno continuo nell'innovazione e nella ridefinizione delle superfici ceramiche nell'ambito dell'architettura contemporanea, dimostrando il potenziale di nuove forme e funzioni che la ceramica italiana può offrire per arricchire gli spazi architettonici contemporanei.

Inspiring better living

Right from the beginning, we've devoted our efforts to exploring and promoting porcelain stoneware, a material that teams beauty with versatility. We are deeply bound to the Italian ceramic tradition, and have invested pride and passion in carrying forward this heritage in over 150 countries worldwide. As ambassadors of Italian craftsmanship, our commitment to providing sustainable solutions for the well-being of the community and the environment is a model of excellence. **We are Mirage, the company where each ceramic surface has a story to tell, bursting with beauty and passion.**

Fin dai nostri esordi, ci siamo immersi con dedizione nell'esplorazione e valorizzazione del gres porcellanato, un materiale che unisce la bellezza estetica alla versatilità. Profondamente legati alla tradizione ceramica Made in Italy, è con orgoglio e passione che abbiamo portato avanti quest'eredità in oltre 150 Paesi nel Mondo. Come ambasciatori del Made in Italy, il nostro impegno nella realizzazione di soluzioni sostenibili per il benessere della comunità e dell'ambiente rappresenta un paradigma di eccellenza. **Siamo Mirage, l'azienda in cui la ceramica si trasforma in narrazione e dove ogni superficie racconta una storia ricca di passione e bellezza.**

Nagomi goes beyond the traditional concept of mosaic, becoming a language through which to narrate stories of spaces that harmonize with their inhabitants and the environment. It embodies a synthesis between the precision of architecture and the poetry of surfaces, merging the accuracy of technique with the fluidity of natural forms.

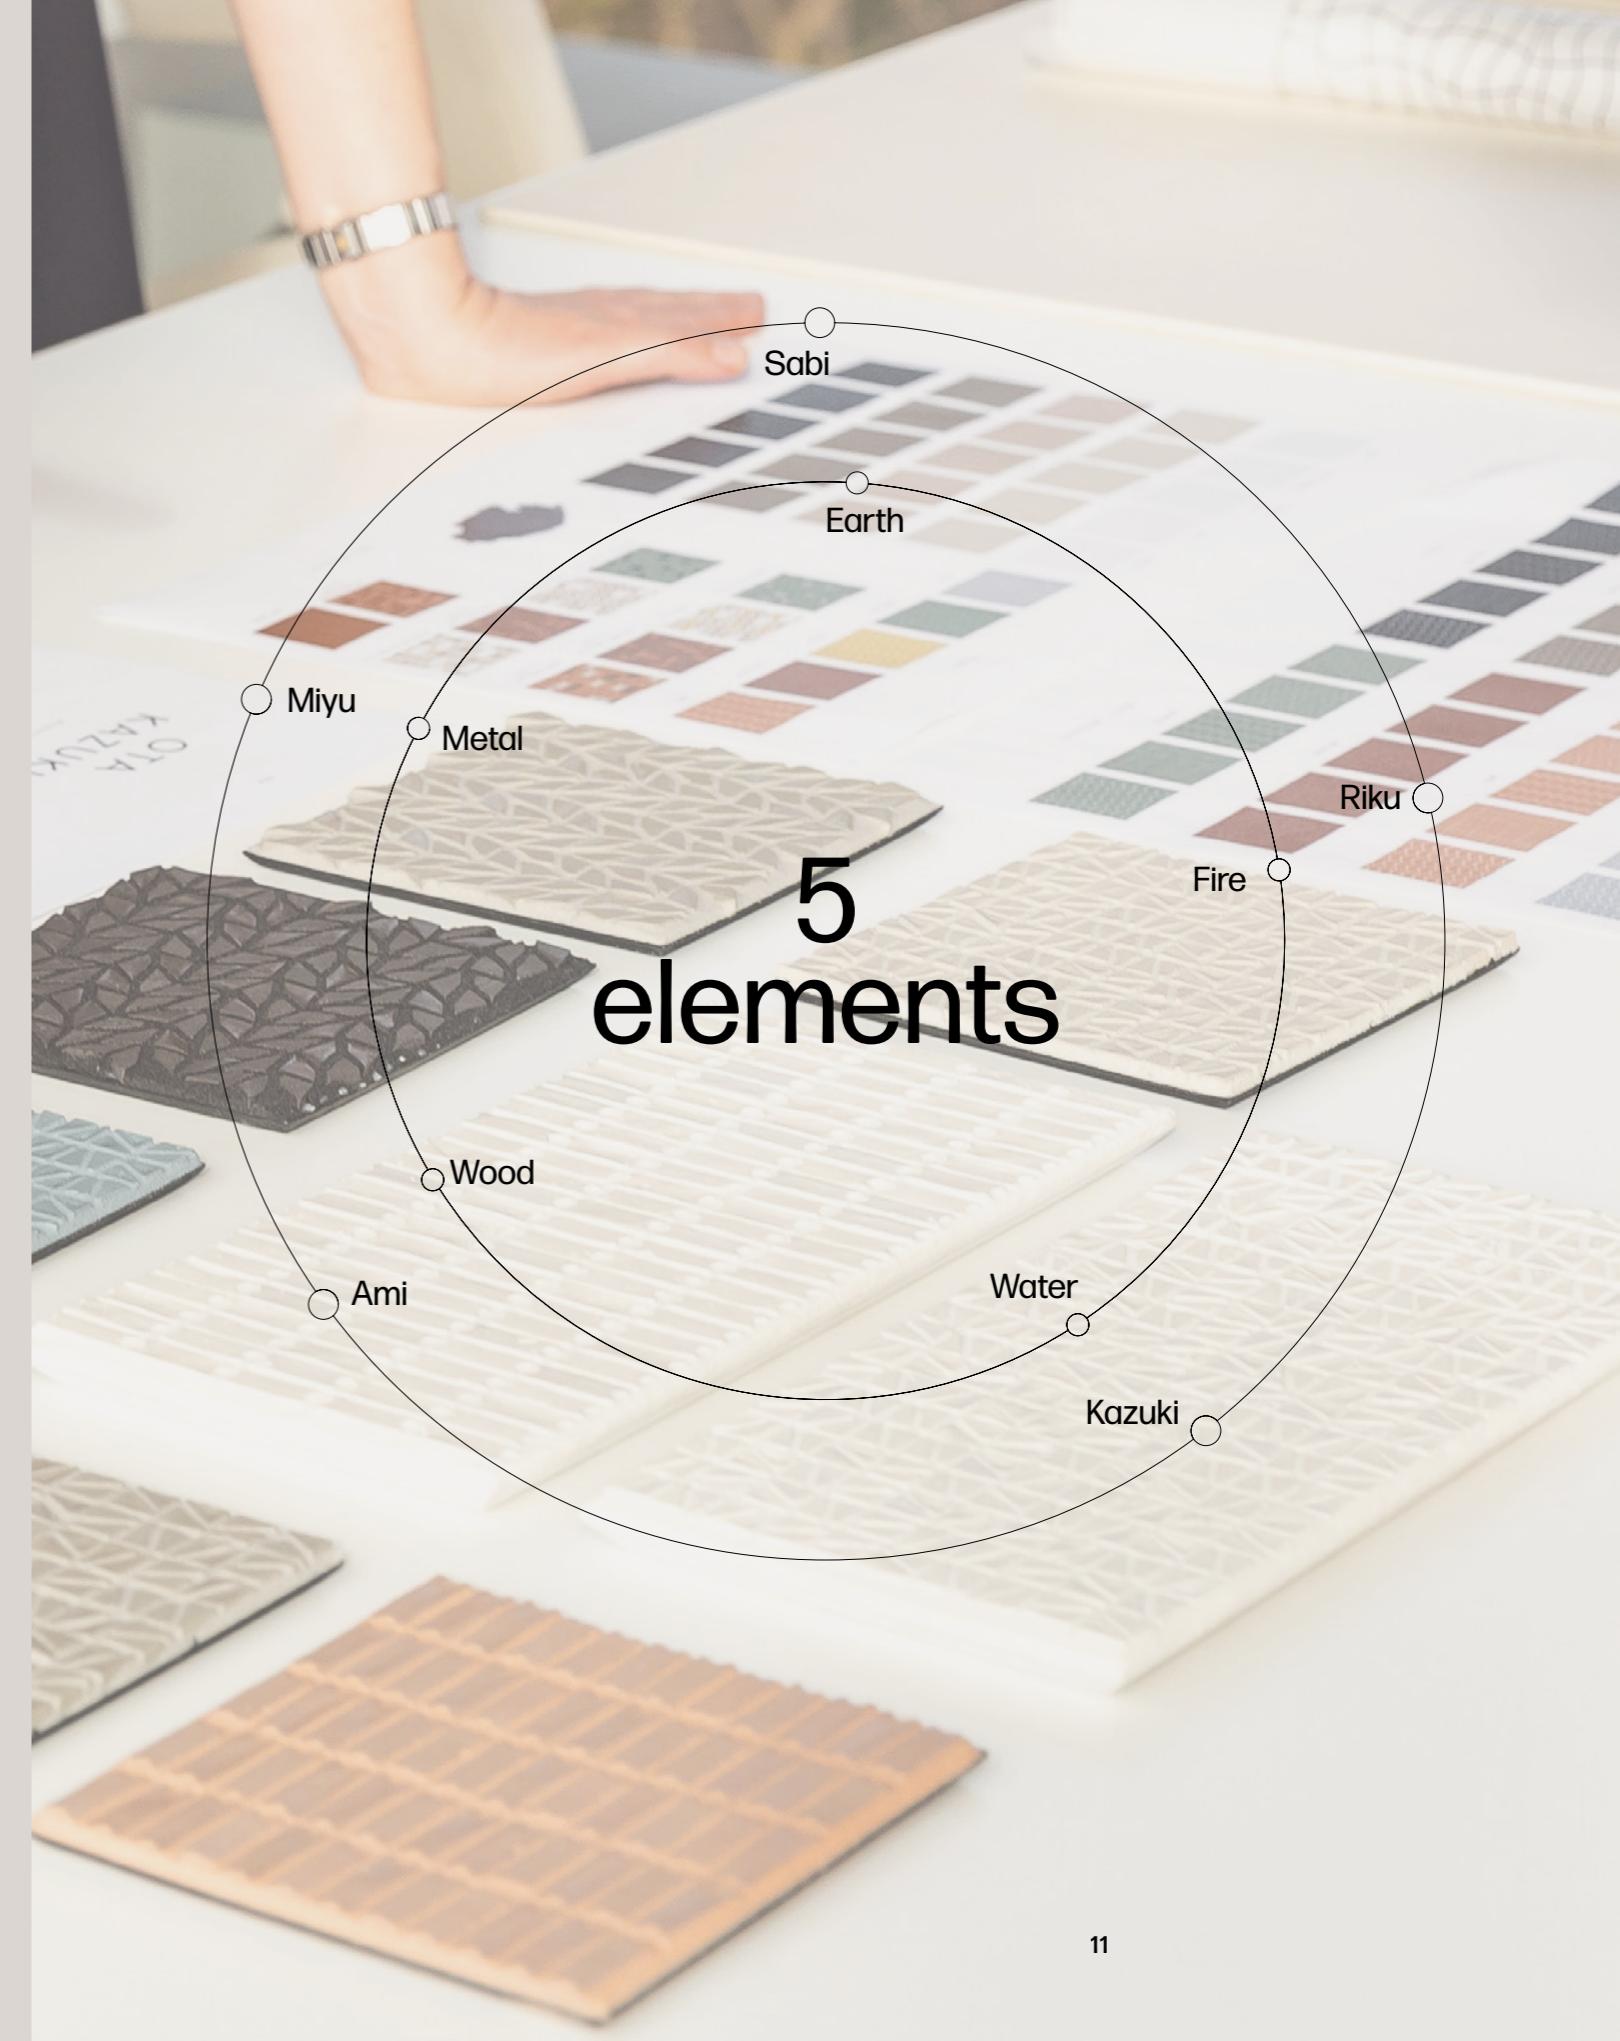

Nagomi di trascende il concetto tradizionale di mosaico, per diventare un linguaggio attraverso il quale raccontare storie di spazi che vivono in armonia con chi li abita e con l'ambiente che li ospita. È una sintesi tra il rigore dell'architettura e la poesia delle superfici, tra la precisione della tecnica e la fluidità delle forme naturali.

Capturing the essence with five elements.

Catturare l'essenza con i **cinque elementi**.

The five elements, Sabi, Riku, Miyu, Ami, Kazuki, capture the essence of the primary elements of nature according to Japanese philosophy: water, wood, fire, metal, earth.
Each shape, with its unique textures and shade, creates a harmony of sensations and well-being.

"A perfect blend between technological innovation and artisanal tradition."

"Una perfetta fusione tra innovazione tecnologica e tradizione **artigianale**."

In an era of environmental crises and numerous technological and scientific innovations, we have opted for a solution that strikes a perfect balance between industrial production and the appeal of craftsmanship. The result is a product that, despite being the result of industrial processes, retains an artisanal soul, inspired by the Japanese philosophy of harmony with the environment.

Il risultato è un prodotto che, pur essendo il risultato di processi industriali, conserva un'anima artigianale, ispirata alla filosofia giapponese dell'armonia con l'ambiente.

“Nagomi transcends the concept of purity and seamlessly integrates with other products.”

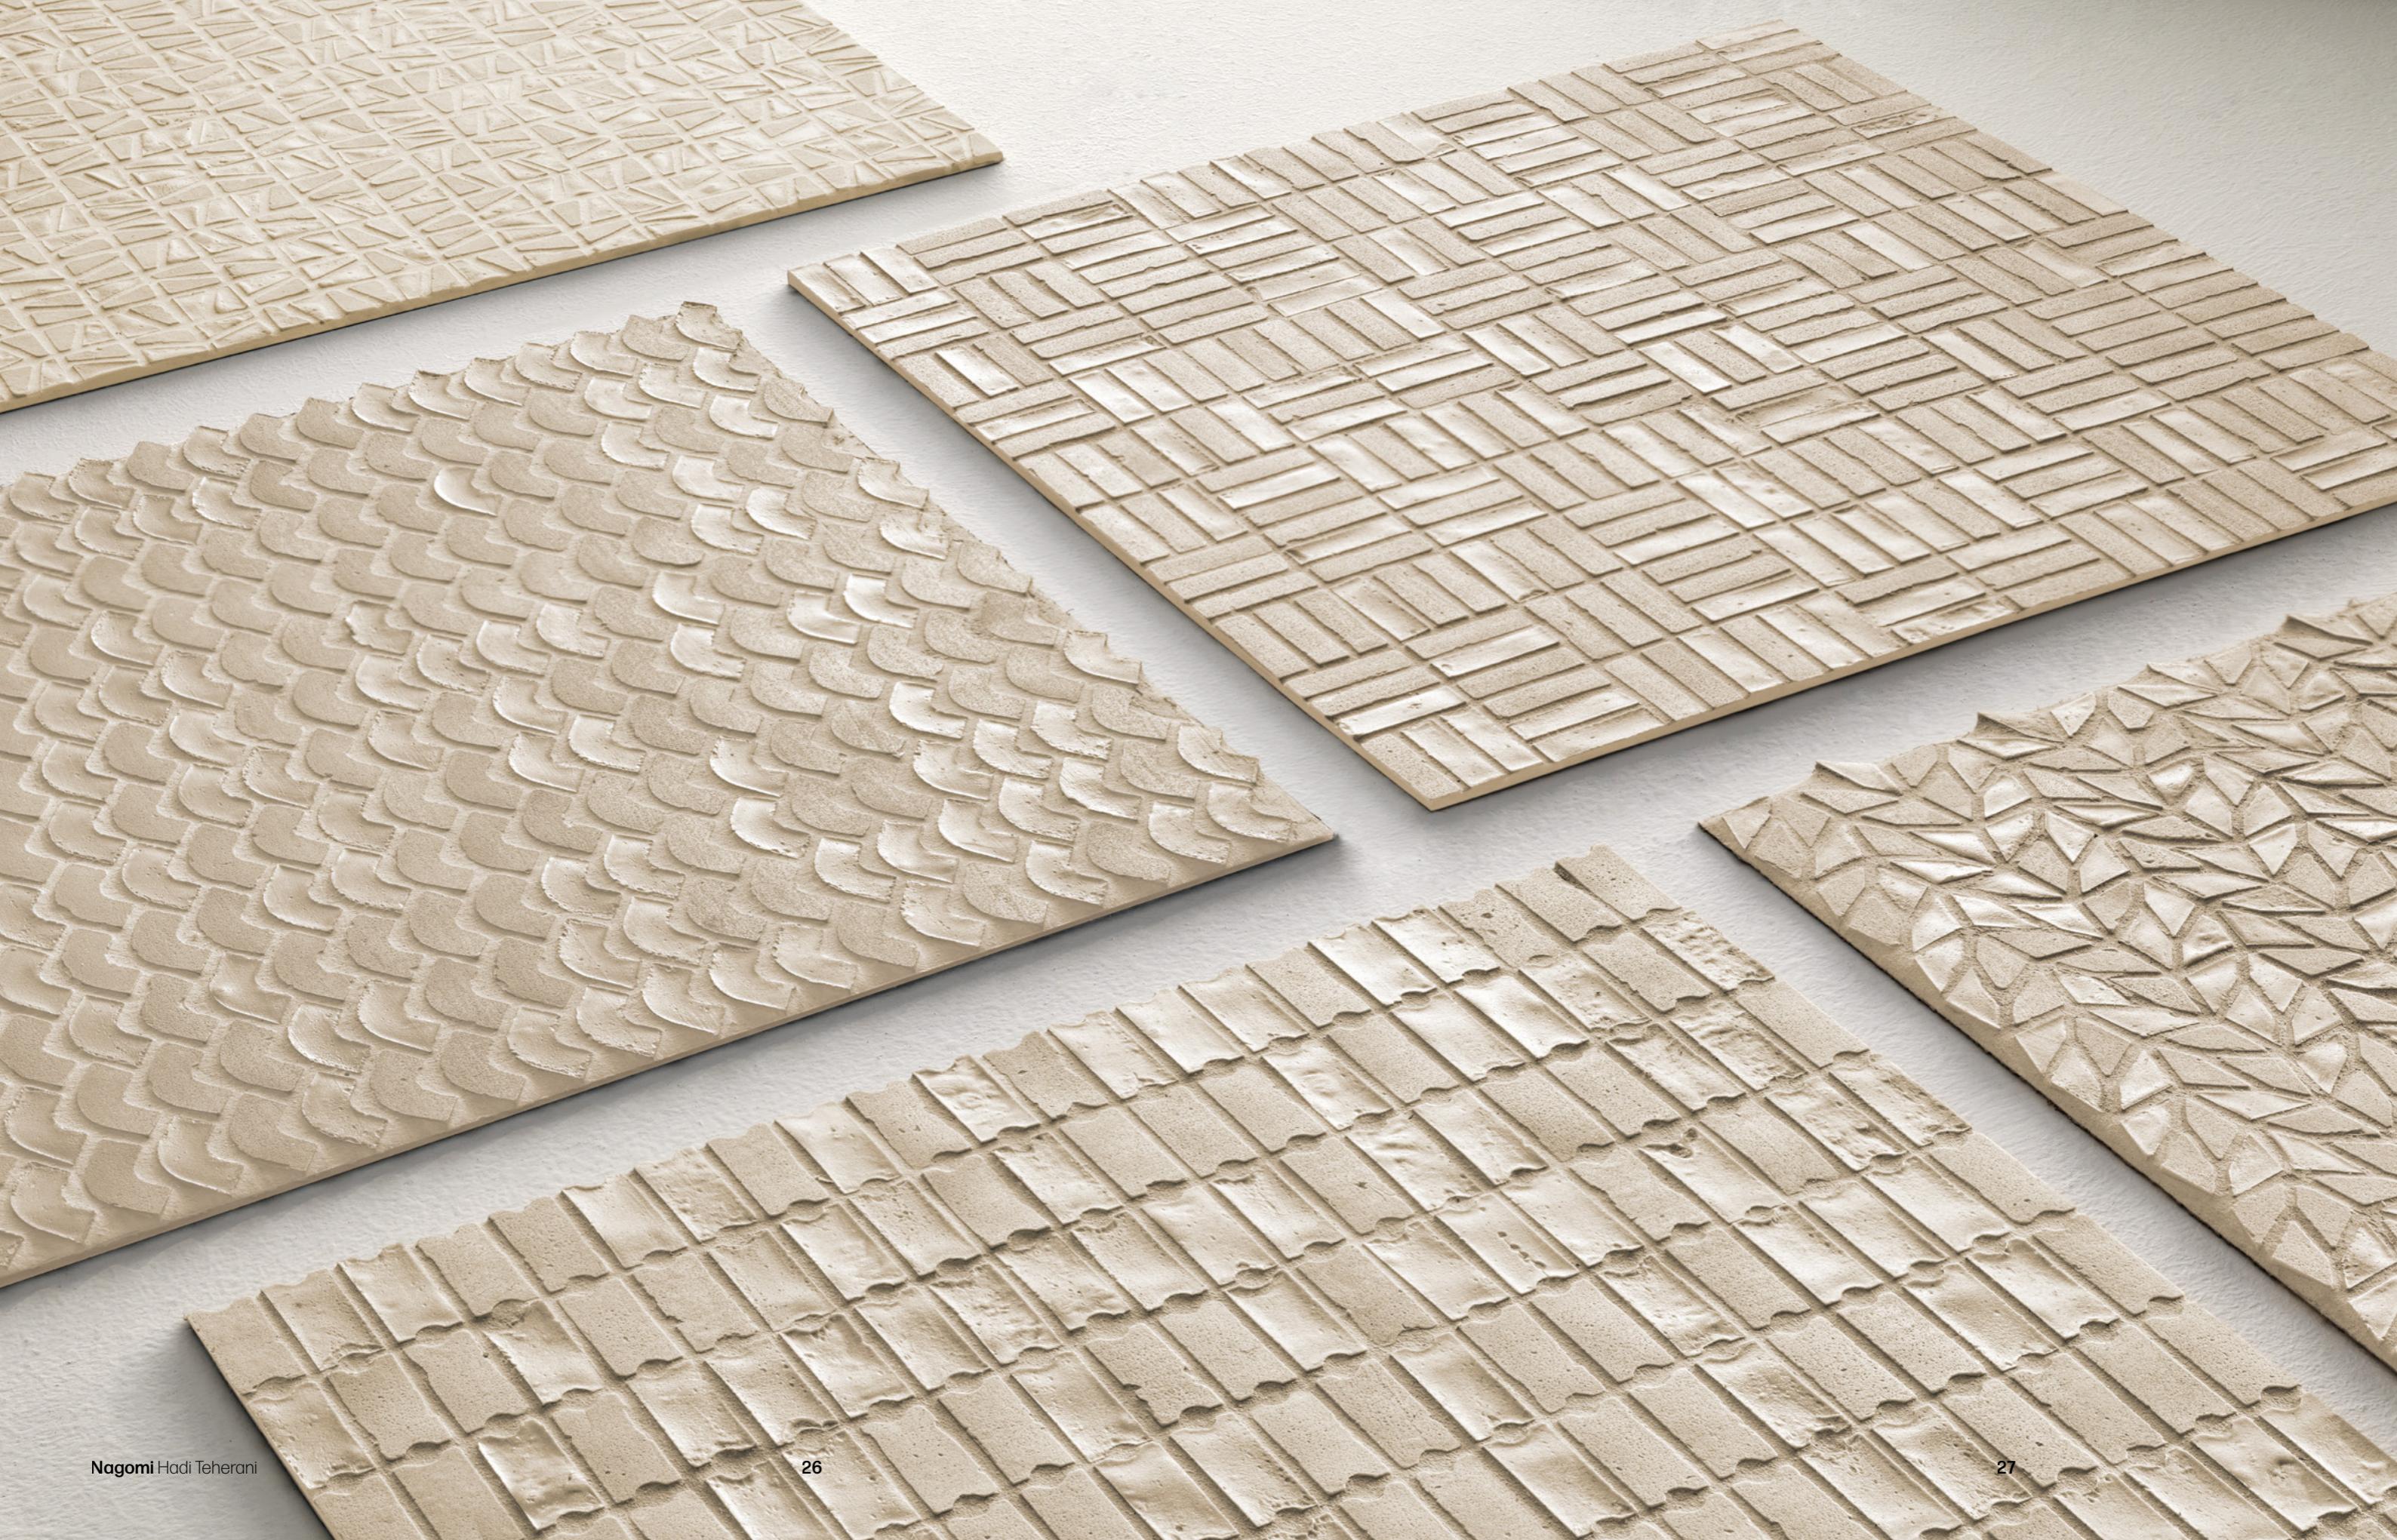

“No tile looks like the next. The random irregularities create an overall harmony.”

“Ogni tessera è diversa dalla successiva. Le **irregolarità** casuali creano un’armonia complessiva.”

The mosaic tiles feature different finishes: a juxtaposition of more or less evident opacities that create a textured and semi artisanal effect. Irregularities and surface abrasions are the random result of an industrial process that makes each tile unique and different from the others.

Le tessere dei mosaici presentano finiture differenti: una contrapposizione di opacità più o meno evidenti che crea un effetto materico e semiartigianale. Le irregolarità e le scalfiture superficiali sono il risultato casuale di un processo industriale che rende ogni tessera unica e diversa dalle altre.

Laying and cleaning suggestions

Suggerimenti di posa e pulizia

Nagomi is a collection obtained through casting, using an industrial process but also involving human intervention. The nature of its composition and the production process make each tile different from the others in terms of light reflection and tonal nuances. Additionally, small surface imperfections are a characteristic of this collection and should not be considered defects.

Installation and cleaning instructions

Nagomi is a collection suitable exclusively for wall cladding. Epoxy grout must be used for material installation. For post-installation and routine cleaning, traditional products suitable for porcelain stoneware can be used, while for any grease stains, the use of alcohol-based degreasers is recommended.

Nagomi è una collezione ottenuta tramite colaggio, attraverso un processo industriale ma che prevede anche l'intervento umano. La natura della sua composizione ed il processo produttivo rendono ogni tessera diversa dalle altre in termini di riflessione della luce e di sfumature tono su tono. Inoltre, le piccole imperfezioni superficiali sono una peculiarità di questa collezione e non sono da considerarsi una difettologia.

Istruzioni per la posa e la pulizia

Nagomi è una collezione adatta esclusivamente per applicazione a rivestimento. Per la posa del materiale è necessario utilizzare stucco epossidico. Per la pulizia post-posa e ordinaria possono essere utilizzati i tradizionali prodotti adatti per il gres porcellanato, mentre per eventuali macchie di unto si consiglia l'utilizzo di sgrassatori alcolici.
