PORCELAIN TILE

GRANITI VICENTIA  
GROUP

## GRANITI VICENTIA BRINGS VALUE TO OUR CUSTOMERS

Graniti Vicentia provides **solutions to create spaces** that support and reflect the individuality, image and brand statement of our customers. We offer a menu of products, services and support to develop your project from the conception to completion.

Our approach is based on a collaborative team of professionals who share their knowledge to work on the project, from concept design, to the technical development of product solutions, through installation.

OUR GOAL IS ALWAYS TO EXCEED THE OWNER'S EXPECTATIONS.

---

## ■ SURFACE SOLUTIONS FOR EVERY NEED

**GV Surfaces** is the division within Graniti Vicentia Group that focuses on surface solutions solutions. We provide innovative solutions that respond to the interior and exterior needs of each of our customers. The flexibility of ceramics allows for each surface to be defined and chosen to create a space with design intent. The portfolio of products offered is the continued effort of GV Surfaces

to keep current. We take great care to select products displaying the **latest trends** in design combined with the **extraordinary quality** and cutting-edge technology of the constant and never-ending research of our vendors. This, along with GV Group's offer of value added fabrication services, provides our customers with **value design**, quality and the performance of surface materials.

QUALITY PRODUCTS FOR UNIQUE PROJECTS.

---

### Fuori dagli schemi, per il ritorno alla dimensione originaria del progetto architettonico

Outside the box, to return to the original dimension of the architectural project.

Pastello, animo nobile.

Pastelli è la dimensione più autentica del mosaico, in piena tradizione

È la cifra del nostro tempo, la ricerca primigenia di un'emozione, di una connessione tenue, perciò costante ed autentica, tra la nostra personalità e l'anima del mondo.

Pastel, noble soul.

Pastelli is the most authentic mosaic dimension, in full tradition. It is the cipher of our time, the primal search for an emotion, for a tenuous (and therefore constant and authentic) connection between our personality and the soul of the world.

L'architettura del colore

Indistruttibile eppure delicata all'apparenza, è la natura di Pastelli, la nuova collezione pensata per riportare l'architettura degli spazi abitativi alla dimensione originaria, sartoriale, a tratti naif.

Pastelli è la soluzione ideale per un uso a pavimento, dove la distinzione tra interno ed esterno, tra pavimentazione e rivestimento, si fa più labile, e quindi libera. Grazie a un materiale straordinario, il *grès porcellanato*, una terra colorata e pressata in *tutta massa*, con proprietà antibatteriche, antifungine, antimacchia, tassi d'assorbimento all'umidità quasi nulli.

Pastelli è disponibile in 8 colori e 3 formati, con la possibilità di sfruttare le fughe in contrasto per realizzare geometrie particolari e linee decorative già all'interno del singolo foglio di rete, una matrice 30x30 cm all'interno della quale ogni singola tessera trova la propria collocazione in relazione al progetto originario.

Una proposta che allontana gli schemi, o meglio li incorpora, per un progetto che si vuole ambizioso eppure libero, nobile ma umile, adattivo e allo stesso tempo performante. Dove il dettaglio, il decoro, si traducono nell'unicità delle texture geometriche in connessione con forme, colori, ambientazioni

The architecture of color

Indestructible yet delicate in appearance - this is the nature of Pastelli, the new collection designed to bring the architecture of living spaces back to the original, tailored, sometimes naive dimension.

Pastelli is the ideal solution for floors, where the distinction between interiors and exteriors, between flooring and covering, becomes more blurred, and therefore free. This is thanks to an extraordinary material, porcelain stoneware, a full-body, coloured and pressed stoneware, with antibacterial, antifungal, anti-stain properties and almost zero moisture absorption rates.

Pastelli is available in 8 colours and 3 sizes, with the possibility of using contrasting joints to create particular geometries and decorative lines inside the single mesh sheet. Inside the 30x30 cm matrix each individual tessera finds its own position in relation to the original project.

A solution that moves away from traditional patterns, or rather incorporates them, for a project that is ambitious yet free, noble but humble, adaptive and at the same time performing. Where details and decoration are translated into the uniqueness of the geometric textures in connection with shapes, colours, settings.

# Pastelli, il grès full coloured body

Mosaic in porcelain stoneware.

Pastelli, il grès full coloured body

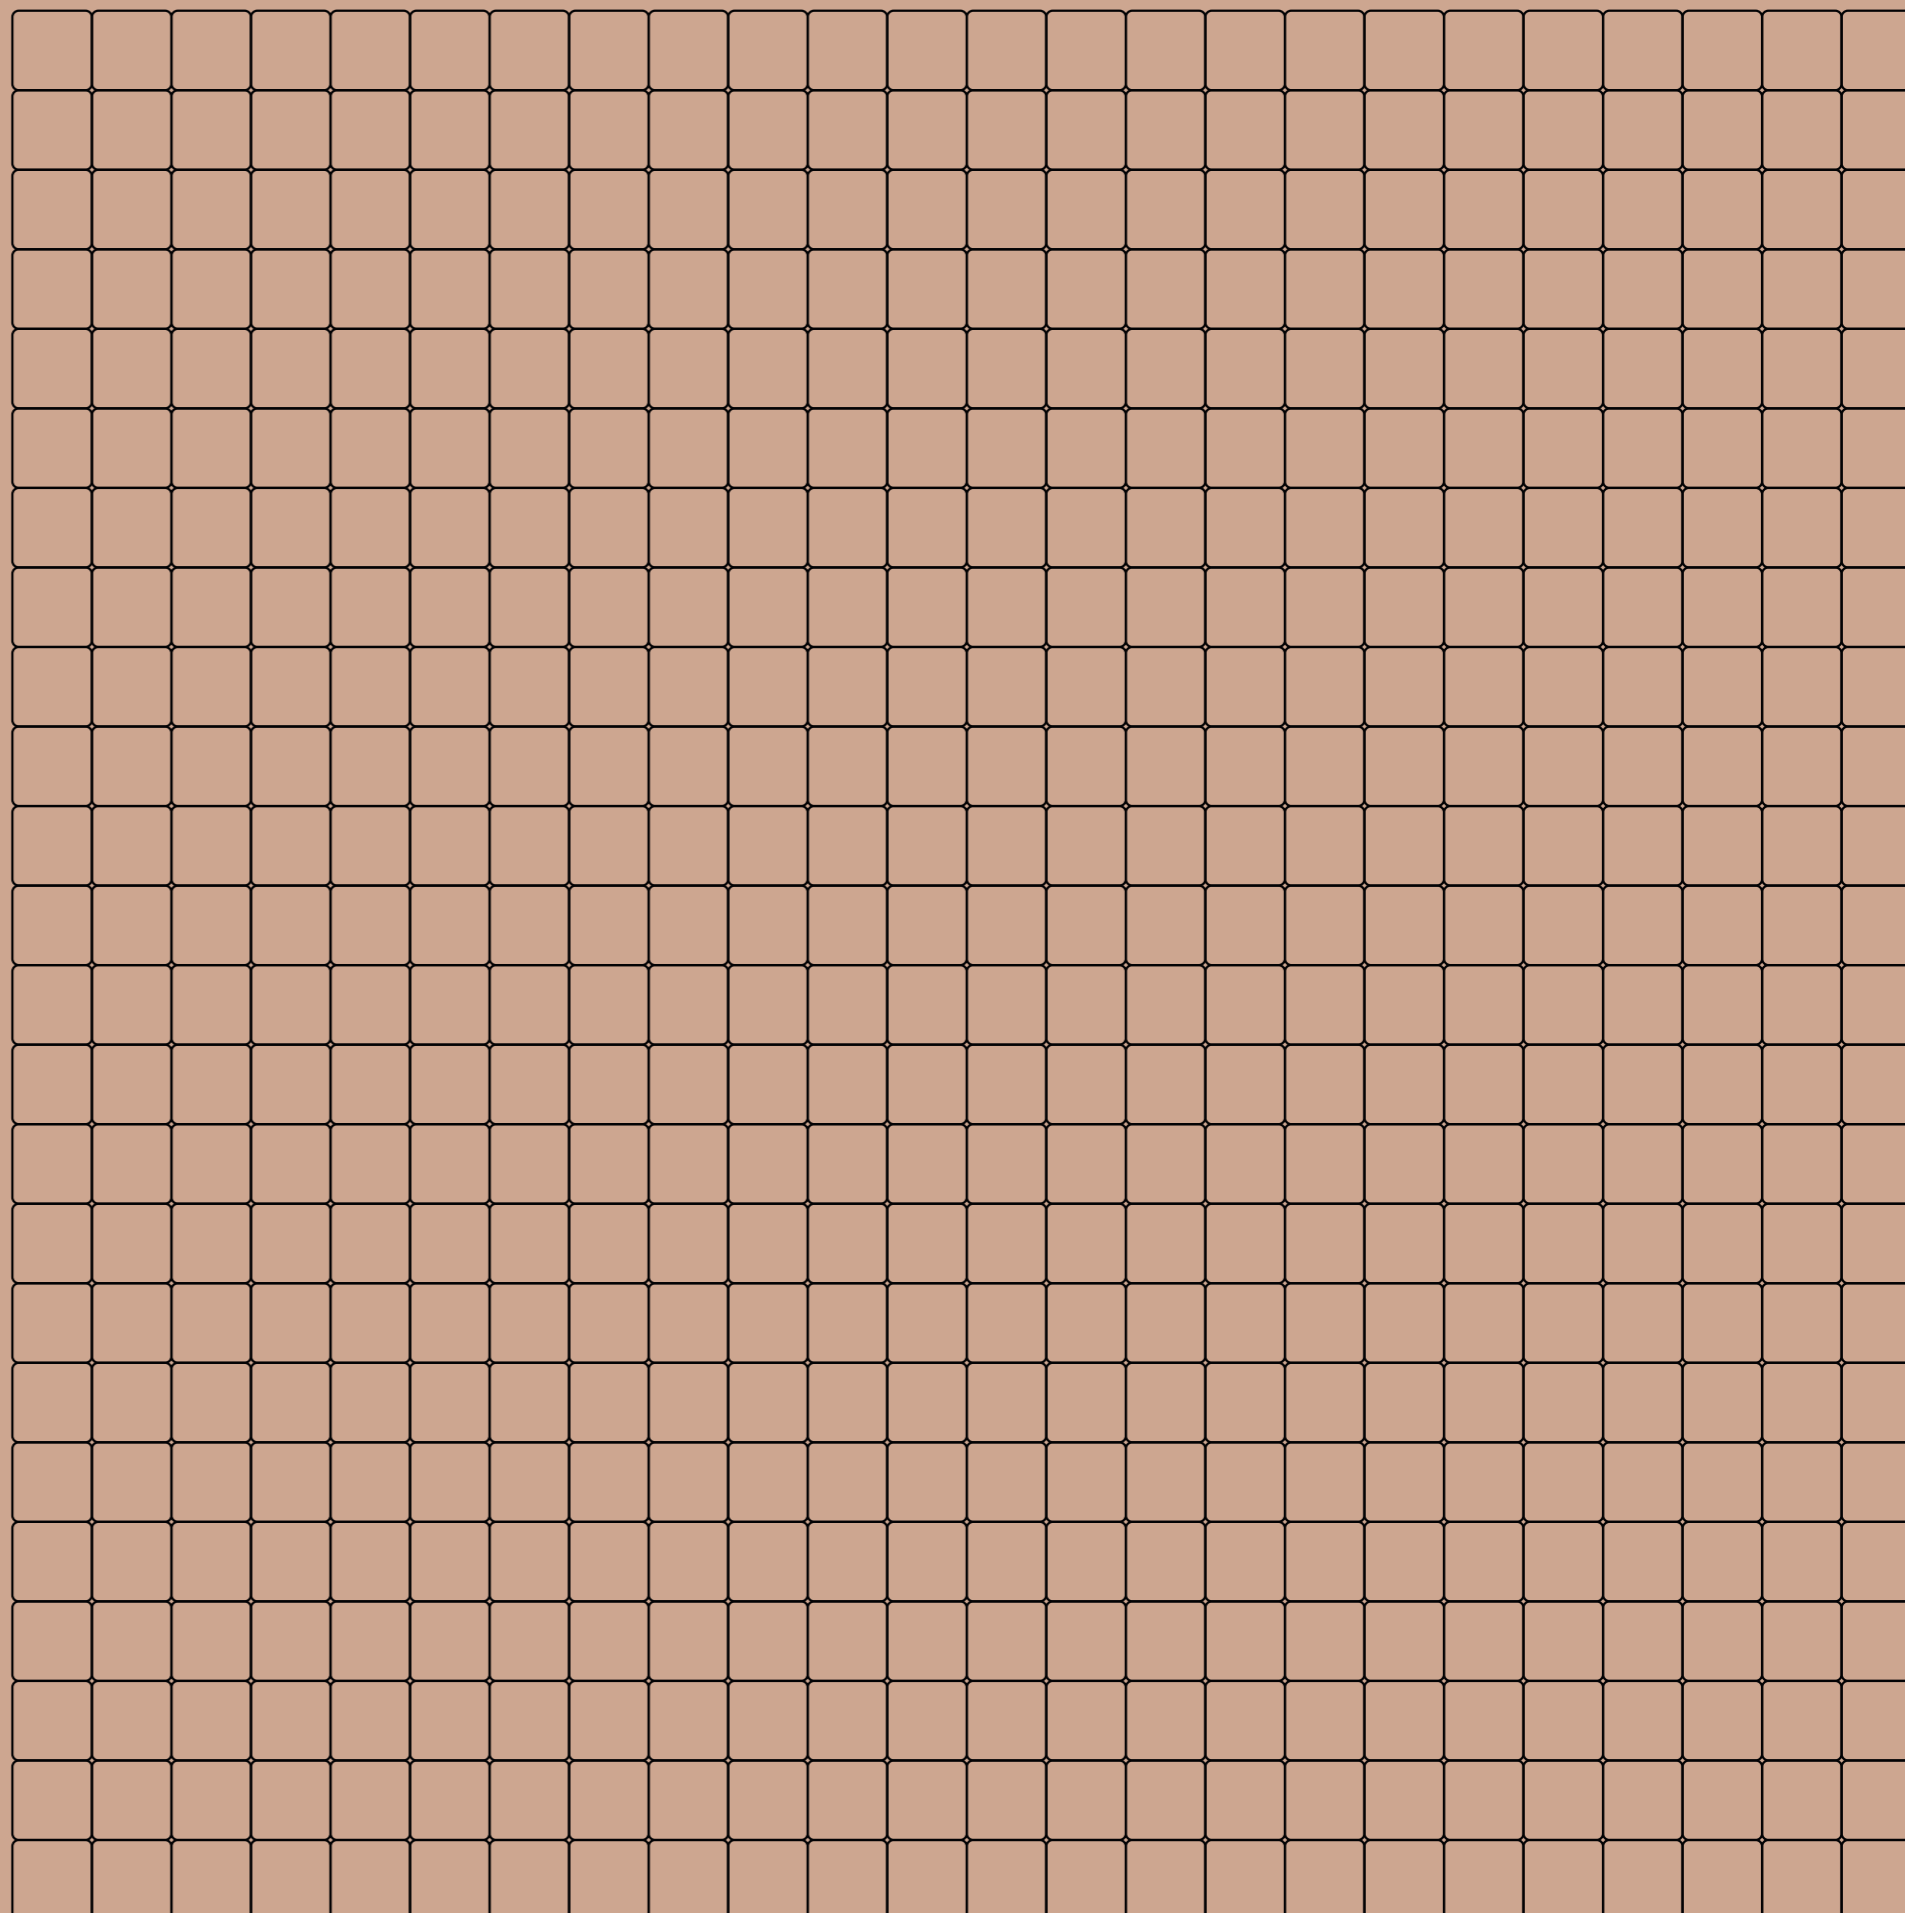

Il mosaico in grès porcellanato full body garantisce elevate performance tecniche che non cambiano nel tempo.

Alte temperature di cottura ed elevata compattezza consentono una significativa resistenza ai carichi, agli urti, all'usura e al gelo. Grazie al basso assorbimento di acqua ( $E \leq 0,5\%$ ), il mosaico è il materiale ceramico più adatto per la posa in esterno a pavimento e a rivestimento, anche in prossimità di superfici umide e a contatto con l'acqua. In particolare, la collezione Pastelli è un prodotto colorato in tutta massa, a partire da argille e terre pigmentate che vengono poi pressate, per comporre ogni singola tessera nelle diverse linee colore. Un prodotto in perfetta coerenza con le collezioni esistenti, per una potenzialità estetica e una durevolezza senza compromessi.

Pastelli, full coloured body stoneware

The new full-body porcelain stoneware mosaic guarantees advanced technical performance that will not change over time.

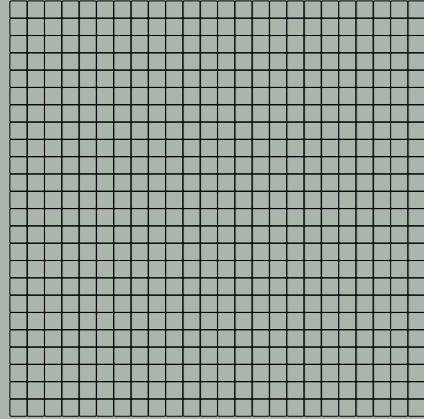

High firing temperatures and high compactness allow significant resistance to loads, shocks, wear and frost. With its low water absorption ( $E \leq 0.5\%$ ) the mosaic is the most suitable ceramic material for outdoor laying on floors and walls, including near surfaces that are damp or in contact with water. In particular, the Pastelli collection is a full-body coloured product, which starts from clay and pigmented earths which are then pressed, to compose each single tile in the different colour lines. A product that is perfectly coherent with the existing collections, for aesthetic potential and uncompromising durability.

# Posa in ambienti con riscaldamento a pavimento

Installation in areas with underfloor heating

## Posa in ambienti con riscaldamento a pavimento

Pastelli è adatto per la posa in ambienti in cui sono presenti impianti di riscaldamento a pavimento nel rispetto dei seguenti requisiti:

- spessore contenuto (7,2 mm)
- buona conducibilità termica della ceramica
- minima quantità di collante necessario per la posa
- utilizzo di fuganti a base cementizia per la stuccatura.

L'insieme dei componenti sopraindicati concorrono ad un'efficace resa tecnica dell'impianto favorendo il passaggio ottimale del flusso di calore per un'adeguata temperatura dell'ambiente oltre a rendere la pavimentazione confortevole al tatto.

## Installation in areas with underfloor heating

Pastelli is suitable for underfloor heating systems, complying with the following requirements:

- reduced thickness (7,2 mm)
- good thermal conductivity of the ceramic material
- minimum amount of glue required for laying
- use of cement-based grouts for filling.

Following these requirements will ensure the effective technical performance of the system, ensuring the optimal passage of heat and maintaining an ideal temperature in the room, while making the floor comfortable to the touch.

## CODIFICA DEI PRODOTTI

Products code

Il codice del prodotto è indicato all'esterno della confezione di vendita (esempio: PST 4001). La scatola del Pastelli contiene nr. 14 fogli di mosaico.

The product code is shown on the outside of the package (example: PST 4001). The Pastelli box contains 14 sheets of mosaic.

## INDICAZIONI PER LA COMPILAZIONE DEI CAPITOLATI

Indication for the compilation of the job prescription

Grès porcellanato: piastrelle di ceramica pressate a secco a basso assorbimento di acqua. E ≤ 0.5% gruppo B I a - M - UGL - EN 14411 appendice G (formati 1,2x1,2 - 2,5x2,5 - 1,2x3,75 cm). Cottura a ciclo lento. Resistenti al gelo.

Porcelain stoneware: dry-pressed ceramic tiles with low water absorption. E ≤ 0.5% Group B I a - M - UGL - EN 14411 appendix G (sizes 1/2x1/2" - 1x1" - 1/2 x 1 1/2"). Slow firing cycle. Frost resistant.
